

Amendment to the Claims

1) (Currently Amended) A pigment preparation comprising at least one copper phthalocyanine pigment selected from the group consisting of C.I. Pigment Blue 15, 15:0, 15:1, 15:2, 15:3, 15:4, and 15:6, and ~~also~~ at least one pigment dispersant of the formula (I),

in which n is a number 1, 2, 3 or 4.

2) (Currently Amended) The pigment preparation as claimed in claim 1, wherein the weight ratio of the at least one copper phthalocyanine pigment to at least one pigment dispersant of the formula (I) is between ~~(99.9 to 0.1)~~ and ~~(75 to 25)~~ 99.9 to 0.1 and 75 to 25.

3) (Currently Amended) The pigment preparation as claimed in claim 1 ~~or 2~~, wherein the weight ratio of the at least one copper phthalocyanine pigment to the at least one pigment dispersant of the formula (I) is between ~~(99 to 1)~~ and ~~(80 to 20)~~ 99 to 1 and 80 to 20.

4) (Currently Amended) The pigment preparation as claimed in ~~at least one of claims 1 to 3~~ claim 1, wherein the weight ratio of the at least one copper

phthalocyanine pigment to the at least one pigment dispersant of the formula (I) is between (97 to 2.5) and (90 to 10) 97 to 2.5 and 90 to 10.

5) (Currently Amended) The pigment preparation as claimed in ~~one or more of claims 1 to 4~~ claim 1, wherein n is a number 1, 2 or 3.

6) (Currently Amended) The pigment preparation as claimed in ~~one or more of claims 1 to 5~~ claim 1, wherein n is a number 1 or 2.

7) (Currently Amended) The pigment preparation as claimed in ~~at least one of claims 1 to 6,~~ claim 1, further comprising auxiliaries or additives at least one compound selected from the group consisting of surfactants, nonpigmentary and dispersants, pigmentary dispersants, fillers, standardizers, resins, waxes, defoamers, antidust agents, extenders, antistatics, shading colorants, preservatives, drying retardants, rheology control additives, wetting agents, antioxidants, UV absorbers, and light stabilizers.

8) (Currently Amended) A process for preparing a pigment preparation as claimed in ~~one or more of claims 1 to 7, which comprises~~ claim 1, comprising the step of mixing the at least one copper phthalocyanine pigment(s) pigment and the at least one pigment dispersant of the formula (I) and, where appropriate optionally, the auxiliaries or additives with one another one or more auxiliaries, one or more additives or both.

9) (Currently Amended) ~~The use of a pigment preparation as claimed in at least one of claims 1 to 8 for pigmenting~~ A pigmented high molecular mass organic materials-material of natural or synthetic origin pigmented by the pigment preparation as claimed in claim 1, wherein the high molecular mass organic material of natural or synthetic origin is selected from the group consisting of, especially plastics, resins, varnishes, paints, electrophotographic toners, electrophotographic

~~and~~ developers, electret materials, color filters, inks, ~~including printing inks,~~ and seed.

10) (Currently Amended) A high molecular mass organic material comprising a coloringly effective amount of a pigment preparation as claimed in ~~one or more of claims 1 to 7~~ claim 1.
